

Adolescent Intake Forms – Information letter

Dear Patient:

We would like to take this opportunity to welcome you to our clinic, and to commend you for taking responsibility for your health. Naturopathic medicine is based on the principle of the body’s own ability to heal, and we at Pinewood Natural Health Centre utilize natural therapeutic measures which are supportive of the body’s inherent healing capabilities.

Please complete the questionnaire provided as honestly and precisely as possible, for every small detail is important, as it will aid us in our assessment of your mental, emotional, and physical well-being.

Our Naturopathic Fee Schedule is As Follows:	ADULTS	SENIORS/STUDENTS	CHILD

N.B. – H.S.T. must be added to the above fees.		FEES ARE SUBJECT TO CHANGE WITHOUT NOTICE.	

The first visit (approximately one hour) concentrates on your main concerns; the second visit (approximately forty-five minutes) entails an assessment of your condition, its treatment, and a physical examination; and, subsequent visits (approximately one-half hour) concentrate on the progress of your treatment.

This medical practitioner endeavors to provide the best possible diagnosis and course of treatment. However, many factors will be important in determining actual results. Therefore, no representation or warranty is made with respect to any treatment, action, or application of medical advice or information given.

We are pleased to inform you that our clinic is equipped with a dispensary for your convenience.

Some insurance companies cover naturopathic treatment, and we advise you to make inquiries concerning this with your company.

If you are unable to attend a scheduled appointment, please cancel 48 hours prior to the appointment, for we may provide care to another patient during the allotted time. If 24 hours’ notice is not given, there will be a fee charged for a missed appointment.

We request that patients who have outstanding balances, at any one time, of \$100.00 or greater pay these in full before further services are rendered. Also, returned cheques (e.g. N.S.F.) will be charged a \$50.00 administrative fee.

Thank you, again, for your commitment and for choosing Pinewood Natural Health Centre as your complimentary health care provider.

PROVISIONAL ONE PAGE DEFINITION OF NATUROPATHIC MEDICINE

Naturopathic medicine is a distinct system of primary health care - an art, science, philosophy and practice of diagnosing, treating and preventing disease. What distinguishes naturopathic medicine is that its practice is based on its underlying principles. Naturopathic medicine's techniques include modern and traditional, and scientific and empirical methods. The following principles are the foundation for naturopathic medical practice:

Principles

The Healing Power of Nature [*Vis Medicatrix Naturae*]

Naturopathic medicine recognizes an inherent healing ability in the body which is ordered and intelligent. Naturopathic physicians act to identify and remove obstacles to recovery, and facilitate and augment this healing ability.

Identify and Treat the Causes [*Tolle Causam*]

The naturopathic physician seeks to identify and remove the underlying causes of illness, rather than to eliminate or merely suppress symptoms.

First Do No Harm [*Primum Non Nocere*]

Naturopathic medicine follows three principles to avoid harming the patient. (a) Utilize methods and medicinal substances which minimize the risk of harmful side effects; (b) Avoid when possible the harmful suppression of symptoms; (c) Acknowledge and respect the individual's healing process using the least force necessary to diagnose and treat illness.

Doctor as Teacher [*Docere*]

Naturopathic physicians educate the patient and encourage self- responsibility for health. They also acknowledge the therapeutic value inherent in the doctor-patient relationship.

Treat the Whole Person

Naturopathic physicians treat each individual taking into account physical, mental, emotional, genetic, environmental, social and other factors. Since total health also includes spiritual health, naturopathic physicians encourage individuals to pursue their personal spiritual path.

Prevention

Naturopathic physicians emphasize the prevention of disease - assessing risk factors and hereditary susceptibility to disease, and making appropriate interventions to prevent illness. Naturopathic medicine strives to create a healthy world in which humanity may thrive

Practice Naturopathic Methods

Naturopathic medicine is defined by principles rather than by methods or modalities. Diagnostic and therapeutic methods are diverse, and will continue to evolve as knowledge of health and disease evolves.

Scope of Practice

Our current scope of practice covers the full practice of medicine excluding major surgery and the use of most legend drugs. This includes but is not limited to the following diagnostic and therapeutic modalities as taught in naturopathic medical schools: nutritional science, natural hygiene, botanical medicine, naturopathic physical medicine including the therapeutic application of water, heat, cold, air, earth and light; oriental medicine, homeopathy, counseling, naturopathic obstetrics (natural childbirth), minor surgery, public health, immunization and all methods of laboratory and clinical diagnosis.
